Welcome to Kettering Health Network’s Joslin Diabetes and Nutrition Center. Congratulations on taking the next step in management of your health! Our center is part of a long-standing tradition of excellence. In addition to caring for patients with diabetes, Joslin Diabetes Center has registered dietitians who provide medical nutrition therapy for patients with non-diabetes health concerns.

The Diabetes and Nutrition Center is designed to assist your primary care physician (PCP) or specialist to individualize your care and set your clinical goals. The Center is not intended to replace your PCP or specialist for any other conditions you may have.

The following is a list of items you will need for your first visit to our office:

- Your insurance card(s) and Valid ID (driver’s license, WPAFB ID, state issued ID)
- Completed paperwork from this packet. For medication sheet please also include over the counter vitamins and supplements.

➢ Please check with your insurance carrier before your appointment to ask if medical nutrition therapy is a covered benefit.

OFFICE POLICY

- If you fail to show for a new patient appointment – without 48 hour notice of cancellation – you may not be rescheduled. You may call 937.401.7588 at any time (even after hours) and leave a message.

“MY CHART” - Please ask our staff how to sign up! This online tool will provide you with appointment reminders to your phone, the ability to communicate with your provider, and easy access to view your lab results.
