Clinical Privileges Profile
Nurse Practitioner
Kettering Medical Center System

☐ Kettering Medical Center  ☐ Sycamore Medical Center

Applicant: Check off the “Requested” box for each privilege requested. Applicants have the burden of producing information deemed adequate by the hospital for a proper evaluation of current competence, current clinical activity, and other qualifications, and for resolving any doubts related to qualifications for requested privileges.

Clinical Service Chief: Check the appropriate box for recommendation on the last page of this form. If recommended with conditions or not recommended, provide condition or explanation on the last page of this form.

Other requirements

• Note that privileges granted may be exercised only at the site(s) and/or setting(s) that have the appropriate equipment, license, beds, staff, and other support required to provide the services defined in this document. Site-specific services may be defined in hospital and/or department policy.

• This document is focused on defining the qualifications related to competency to exercise clinical privileges. The applicant must also adhere to any additional organizational, regulatory, or accreditation requirements that the organization is obligated to meet.

• Each specialty and/or supervising/collaborating physician is responsible for submitting a list of privileges, which are not otherwise identified in this document, and that are within the supervising physician’s normal course and scope of practice. This specific list will be approved by the Allied Health Professionals Council, the Credentials Committee and the Medical Executive Committee. An approved list will then be included in each NP’s application. If special duties, not included on the list, are requested they must be approved by the above committees.

• The privileges of a Nurse Practitioner may be terminated at the direction of the clinical service chief in which the supervising/collaborating physician is a member or the Chief of Staff at any time for just and due cause. The supervising physician may appeal this termination to the Medical Executive Committee or a committee especially dedicated for this purpose. Privileges are voluntarily resigned upon leaving the employment of the supervising/collaborating physician(s).

QUALIFICATIONS FOR NURSE PRACTITIONER

To be eligible to apply for clinical privileges as a nurse practitioner, the applicant must meet the following criteria:

(1) Licensed registered nurse in the State of Ohio, with a Master's Degree in the specialty and holds an Ohio certificate of authority to practice as a CNP.

(2) For prescriptive privileges, a Certificate to Prescribe is required.

(3) Practices only in accordance with a Standard Care Arrangement entered into with one or more collaborating physicians who are continuously available to communicate with the CNP either in person or by radio, telephone, or other form of telecommunication. It is the responsibility of the CNP and collaborating physician to provide Medical Staff Services with a copy of the original and any revisions to the Standard Care Arrangement.
(4) Successfully passed the certification exam of the American Nurses Credentialing Center, or other certifying organizations approved by the Ohio Board of Nursing relative to the CNPs designated specialty (i.e. Neonatology).

(5) Professional liability insurance coverage issued by a recognized company and of a type and in an amount equal to or greater than the limits established by the governing body.

**Required previous experience:** Applicants for initial appointment must be able to demonstrate provision of care, treatment, or services reflective of the scope of privileges requested to at least 25 patients in the past 12 months, or completion of master’s or post master’s degree program in the past 12 months.

**Reappointment requirements:** To be eligible to renew core privileges as an NP in acute care, the applicant must meet the following maintenance of privilege criteria:

Current demonstrated competence and an adequate volume of experience 25 patients with acceptable results in the privileges requested for the past 24 months based on results of ongoing professional practice evaluation and outcomes. Evidence of current ability to perform privileges requested is required of all applicants for renewal of privileges.

**Medical record charting responsibilities**

Clearly, legibly, completely, and in a timely fashion, the NP must describe each service provided to a patient in the hospital and describe relevant observations. Standard rules regarding authentication of, necessary content of, and required time frames for preparing and completing the medical record and portions thereof are applicable to all entries made.

**CORE PROCEDURE LIST FOR CERTIFIED NURSE PRACTITIONERS**

These lists are a sampling of procedures included in the core. This is not intended to be an all-encompassing list but rather reflective of the categories/types of procedures included in the core.

**To the applicant:** If you wish to exclude any procedures, please strike through those procedures you do not wish to request, then initial and date.

- Administer ACLS, if certified
- Appraise health risks and behaviors
- Apply, remove, and change dressings and bandages
- Counsel and instruct patients and significant others as appropriate
- Diagnose and manage commonly occurring health and disease related symptoms
- Dictate H & P’s
- Direct care as specified by medical staff approved protocols
- Educate and counsel patients covering such things as health status, test results, disease processes, and discharge planning
- Initiate referral to consultant physician or other healthcare professional of problems that exceed the NP’s scope of practice
- Insert and remove nasogastric tubes
- Initiate referral to appropriate physician or other healthcare professional of problems that exceed the NP’s scope of practice
- Make daily rounds on hospitalized patients with or at the direction of the collaborating/supervising physician
- Assess, diagnose, treat and observe patient responses relevant to stable acute and chronic illnesses of the population served
- Obtain and record medical/social history and perform physical examinations including rectal and pelvic examinations as indicated
- Order diagnostic testing and therapeutic modalities such as laboratory tests, medications, treatments, X-ray, EKG, IV fluids and electrolytes, etc.
- Perform consultations and document
- Perform field infiltrations of anesthetic solutions
- Perform incision and drainage of superficial abscesses
• Perform site checks after placement of catheters or pacemakers
• Perform urinary bladder catheterization (short-term and indwelling) (e.g., Robinson, coudé, Foley)
• Perform venous punctures for blood sampling, cultures, and IV catheterization
• Perform wound debridement and general care for superficial wounds and minor superficial surgical procedures, including suturing
• Provide admission and discharge orders
• Provide care to critical and non-critical patients
• Provide preliminary interpretation of EKG
• Record progress notes
• Record discharge summaries
NURSE PRACTITIONER (NP) CORE PRIVILEGES

(Includes as applicable: allergy/immunology, endocrinology, family medicine, gastroenterology, hematology/oncology, infectious disease, internal medicine, physical medicine and rehabilitation, pulmonary medicine, and rheumatology)

☐ Requested Manages the healthcare of acutely ill, chronically ill, and critically ill patients within the age group of the collaborating/supervising physician. NPs may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — CARDIOVASCULAR DISEASE

☐ Requested Provide comprehensive care to patients diagnosed with cardiovascular disease and identified as at-risk for cardiac vascular events within the age group of patients seen by the collaborating/supervising physician. NPs may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — CARDIOTHORACIC SURGERY

☐ Requested Management of care for patients undergoing cardiothoracic surgery procedures within the age group seen by the collaborating physician to include pre-, intra-, and postoperative care, the performance of physical exams, diagnosing conditions, the development of treatment plans, health counseling, prescribing medications in accordance with state law, and assisting in surgery. NPs may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — CARDIAC SURGERY

☐ Requested Management of care for patients undergoing cardiac surgery procedures within the age group seen by the collaborating physician to include pre-, intra-, and postoperative care, the performance of physical exams, diagnosing conditions, the development of treatment plans, health counseling, prescribing medications in accordance with state law, and assisting in surgery. NPs may not admit patients to the hospital. Provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — CRITICAL CARE

☐ Requested Management of care including risk appraisal, interpretation of diagnostic tests, providing treatment, and prescribing medication for patients with complex needs who are critically ill within the age group of patients seen by the collaborating physician. NPs may not admit patients to the hospital. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.
NURSE PRACTITIONER (NP) CORE PRIVILEGES — EMERGENCY MEDICINE

- **Requested** Assess, evaluate, diagnose, and initially treat patients of all ages who present in the ED with any symptom, illness, injury, or condition, and provide services necessary to ameliorate minor illnesses or injuries. Stabilize patients with major illnesses or injuries and assess all patients to determine if additional care is necessary. Privileges do not include long-term care of patients on an inpatient basis. No privileges to admit or perform scheduled elective procedures with the exception of procedures performed during routine emergency room follow-up visits. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — GASTROENTEROLOGY

- **Requested** Provide care, treatment, and services consistent with gastroenterology practice, including the performance of physical exams, diagnosing conditions, the development of treatment plans, health counseling, and prescribing medications in accordance with state law for patients within the age group of patients seen by the collaborating/supervising physician. NPs may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — NEPHROLOGY

- **Requested** Provide care, treatment, and services consistent with nephrology practice, including the performance of physical exams, diagnosing conditions, the development of treatment plans, health counseling, and prescribing medications in accordance with state law for patients within the age group of patients seen by the collaborating/supervising physician. NPs may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — NEONATOLOGY *

- **Requested** Evaluate, diagnose, and provide care, treatment, and services consistent with neonatal/perinatal practice for well babies. NPs may not admit patients to the hospital. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

*Not applicable to Sycamore Medical Center

NURSE PRACTITIONER (NP) CORE PRIVILEGES — NEONATAL INTENSIVE CARE

- **Requested** Evaluate, diagnose, treat, and provide consultation to newborns presenting with severe and complex life-threatening problems such as respiratory failure, shock, congenital abnormalities, and sepsis, and provide consultation to mothers with high-risk pregnancies. NPs may not admit patients to the hospital. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services.
NURSE PRACTITIONER (NP) CORE PRIVILEGES — NEUROLOGY

☐ Requested Provide care, treatment, and services consistent with neurology practice, including the performance of physical exams, diagnosing conditions, the development of treatment plans, health counseling, and prescribing medications in accordance with state law for patients within the age group of patients seen by the collaborating/supervising physician. NPs may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — NEUROSURGERY

☐ Requested Management of care for patients undergoing neurosurgery procedures within the age group seen by the collaborating physician to include pre-, intra-, and postoperative care, the performance of physical exams, diagnosing conditions, the development of treatment plans, health counseling, prescribing medications in accordance with state law, and assisting in surgery. NPs may not admit patients to the hospital. Provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — ORTHOPEDICS

☐ Requested Provide care, treatment, and services consistent with orthopedic practice, including the performance of physical exams, diagnosing conditions, the development of treatment plans, health counseling, and prescribing medications in accordance with state law for patients within the age group of patients seen by the collaborating/supervising physician. NPs may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — PEDIATRICS

☐ Requested Provide care, treatment, and services consistent with pediatric practice, including the performance of physical exams, diagnosing conditions, the development of treatment plans, health counseling, and prescribing medications for patients within the age group of patients seen by the collaborating/supervising physician. NPs may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.
NURSE PRACTITIONER (NP) CORE PRIVILEGES — PSYCHIATRIC AND MENTAL HEALTH

- **Requested** Evaluate, diagnose, and provide primary mental healthcare and treatment using a variety of therapeutic and interpersonal techniques for patients within the age group seen by the collaborating/supervising physician who are at risk for developing or presently have psychiatric disorders. The NP may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — RADIATION ONCOLOGY

- **Requested** Provide care, treatment, and services consistent with radiation oncology practice, including the performance of physical exams, diagnosing conditions, the development of treatment plans, health counseling, and prescribing medications for patients within the age group of patients seen by the collaborating/supervising physician. NPs may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — SURGERY/TRAUMA

- **Requested** Evaluate, diagnose, and provide pre-, intra- and postoperative care, treatment, and services consistent with surgical practice, including the performance of physical exams, diagnosing conditions, the development of treatment plans, health counseling, prescribing medications, and assisting in surgery for patients within the age group of patients seen by the collaborating/supervising physician. NPs may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

NURSE PRACTITIONER (NP) CORE PRIVILEGES — UROLOGY

- **Requested** Provide care, treatment, and services consistent with urology practice, including the performance of physical exams, diagnosing conditions, the development of treatment plans, health counseling, and prescribing medications for patients within the age group of patients seen by the collaborating/supervising physician. NPs may not admit patients to the hospital. May provide care to patients in the intensive care setting in conformance with unit policies. Assess, stabilize, and determine the disposition of patients with emergent conditions consistent with medical staff policy regarding emergency and consultative call services. The core privileges in this specialty include the procedures on the attached procedure list and such other procedures that are extensions of the same techniques and skills.

**SPECIALTY CORE PROCEDURE LIST (SEE SPECIAL NON-CORE CRITERIA FOR CERTAIN DESIGNATED REQUESTS)**

*Required previous experience:* For those procedures below in italic, demonstrated current competence and evidence of the performance of at least 5 procedures in the past 12 months is required; if there is no evidence, direct supervision is required for the first 5 procedures. *Maintenance of privilege:* For those procedures below in italic, demonstrated current competence and the performance of at least 5 procedures in the past 24 months based on results of ongoing professional practice evaluation and
outcomes is required; if there is insufficient activity, direct supervision is required for the first 5 procedures.

☐ **Cardiovascular Disease**  
Monitor chest pain  
*Performance of pharmacological/non-pharmacological stress tests*

☐ **Cardiothoracic Surgery**  
*Assist in surgery to include, but not limited to, first assist, deep and simplified tissue closures, application of appliances, and any other action delegated by the surgeon*  
Harvesting of saphenous vein or radial artery conduit  
*Insert chest tubes to include pleurodesis*  
*Insertion central venous catheters*  
*Insertion of pulmonary artery catheters*  
*Insertion of radial and femoral arterial lines*  
*Insertion of intra-aortic balloon pump*  
Make preoperative and postoperative teaching visits with patients  
*Perform thoracentesis*

☐ **Critical Care**  
*Insert arterial catheters*  
*Insert central venous catheters*  
*Insert chest tubes*  
*Insert pulmonary artery catheters*  
Order and perform initial interpretations of simple plain X-ray films with final read by radiologist.  
*Perform endotracheal extubation*  
*Perform endotracheal intubation*  
*Perform lumbar punctures*  
*Thoracentesis*  
*ABG*  
*Change tracheostomy tubes*  
*Interpret Chest X-Ray*

☐ **Emergency Medicine**  
*Arthrocentesis and joint aspirations*  
*Perform lumbar puncture*  
*Insert thoracostomy tubes*  
*Change G-tubes*  
*Change tracheostomy tubes*  
*Diagnostic lumbar punctures*  
*FAST ultrasound*  
*Independent Assessment and Disposition of Low Acuity Patients*  
*Insert Heimlich (small gauge) valve*  
*Interosseous access*  
*Laceration repair*  
*Local/digital anesthesia*  
*Manage epistaxis*  
*Ocular tonometry*  
*Perform arterial puncture and blood gas sampling*  
*Perform intubation*  
*Perform preliminary interpretations of simple plain X-ray films with second reading by supervising physician (or radiologist)*  
*Peripheral arterial/peripheral and central venous access*  
*Reduce joint dislocations*  
*Perform removal of foreign body (ears, nose, rectum, vagina, throat, and soft tissue)*  
*Superficial foreign body removal from cornea*  
*Trephination and removal of nail*  
Assist the ER physician in any other action delegated by the physician under direct supervision of
the physician

- **Gastroenterology**
  - Change gastrostomy feeding tubes
  - Diagnostic and therapeutic paracentesis
  - Assist physician with insertion of percutaneous gastrostomy tube insertion
  - Anoscopy

- **Neonatology**
  - Order and obtain samples for appropriate studies and discuss results with neonatologist. Institute appropriate action subsequent to conference with the neonatologist.
  - Order the use and discontinuation of phototherapy subsequent to conference with the neonatologist.
  - Perform newborn physical examinations using the techniques of observation, inspection, auscultation, palpation, and percussion
  - Perform routine immunizations
  - Perform screenings of Auditory Brainstem Responses (ABRs)
  - Provide immediate supportive care of the newborn in the delivery room
  - Review maternal health, labor, and delivery records of all infants admitted to newborn nursery under the service of the neonatology group

- **Neonatal intensive care**
  - Insert and manage urethral catheter
  - Perform diagnostic and therapeutic procedures including, but not limited to:
    - Performing arterial puncture
    - Performing emergency needle thoracentesis
    - Performing endotracheal intubation
    - Performing lumbar punctures
    - Performing exchange transfusions
    - Initiating cardiopulmonary resuscitation
    - Inserting and managing central venous catheters
    - Inserting and removing chest tubes
    - Inserting intraosseous needles
    - Inserting and managing arterial catheters
    - Inserting and managing percutaneous venous catheters
    - Inserting and managing umbilical artery catheters
    - Inserting and managing umbilical venous catheters
    - Performing laryngoscopy and suction
    - Performing suprapubic bladder aspiration

*Not applicable to Sycamore Medical Center

- **Nephrology**
  - Place vascular catheters for hemodialysis and plasmapheresis
  - Remove permacaths
  - Start femoral dialysis lines

- **Neurology**
  - Lumbar Puncture

- **Neurosurgery**
  - Manage intracranial monitors
  - Remove cranial and spinal drains
  - Perform lumbar puncture
  - Place Halo fixation
  - Place intracranial pressure monitor
  - Place external ventricular drains
Orthopedics
Administer digital block
Application of casts and/or splints
Application of skeletal traction pin to tibia or femur
Closed reduction of fracture or dislocation of the elbow, wrist, ankle, hip and shoulder
Injection of steroids preparation into the following joints shoulder, elbow, wrist, hip & knee plus, subacromial bursa, lateral & medial epicondyle tendon insertion about the elbow, greater trochanteric bursa, and olecranon bursa
Order orthopedic devices as allowed by state legislation
Perform arthrocentesis of: shoulder, elbow, wrist, hip and knee
Perform compartment pressure measurements

Pediatrics
Lumbar Puncture

Psychiatric and Mental Health
Clinically manage psychiatric disorders including but not limited to severe and persistent neurobiological disorders
Conduct individual, group, and family psychotherapy

Radiation Oncology*
Assists Radiation Oncologist with simulations, procedures, and portal verification

*SNot applicable to Sycamore Medical Center

Surgery/Trauma
Assist in surgery to include, but not limited to, first assist, deep and simplified tissue closures, application of appliances, and any other action delegated by the surgeon
Anoscopy
Change/remove gastrostomy tubes
Change tracheostomy tubes
Diagnostic and therapeutic paracentesis, under direct supervision
Independent assessment and disposition of low acuity patients
Insert central venous catheters
Insertion of radial and femoral arterial lines
Interosseous access, emergent only
Laceration repair
Local/digital anesthesia
Perform arterial puncture and blood gas sampling
Perform preliminary interpretations of simple plain x-ray films with second reading by supervising physician or radiologist
Perform removal of foreign body (ears, nose, rectum, vagina, throat, and soft tissue)
Trephination and removal of nail

Urology
Serve as first assistant in all surgical procedures and any other action delegated by the surgeon

Special Noncore Privileges (See Specific Criteria)

If desired, noncore privileges are requested individually in addition to requesting the core. Each individual requesting noncore privileges must meet the specific threshold criteria governing the exercise of the privilege requested including training, required previous experience, and for maintenance of clinical competence.
Video assisted vein harvesting will be in accordance with current manufacturing guidelines. Those guidelines include:

- Training at the manufacture’s site.
- Proctoring for a minimum of ten (10) cases by an approved proctor.
- Maintain a minimum of at least thirty six (36) video vein harvestings per year; a maximum of fifty percent (50%) can be completed by simulation.
- A copy of the case log will need to be provided for recredentialing.

☐ **Requested**

Open vein harvesting privileges will need to include the following:

- Proctoring for a minimum of ten (10) cases by an approved proctor.
- Maintain a minimum of at least ten (10) cases per year.
- A copy of the case log will need to be provided for recredentialing.

☐ **Requested**

### INSERT ARTERIAL CATHETERS

☐ **Requested** Those technical and management skills that qualify the NP to administer highly specialized care by virtue of training and experience. **Required previous experience:** Demonstrated current competence and evidence of the performance of at least 5 procedures in the past 12 months or direct supervision is required for the first 5 procedures. **Maintenance of privilege:** Demonstrated current competence and evidence of the performance of at least 5 procedures in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

### PERFORM ARTHROCENTESIS AND JOINT ASPIRATION

☐ **Requested** Those technical and management skills that qualify the PA to administer highly specialized care by virtue of training and experience. **Required previous experience:** Demonstrated current competence and evidence of the performance of at least 5 procedures in the past 12 months or direct supervision is required for the first 5 procedures. **Maintenance of privilege:** Demonstrated current competence and the performance of at least 5 procedures in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

### INSERT CENTRAL VENOUS CATHETERS

☐ **Requested** Those technical and management skills that qualify the NP to administer highly specialized care by virtue of training and experience. **Required previous experience:** Demonstrated current competence and evidence of the performance of at least 5 procedures in the past 12 months or direct supervision is required for the first 5 procedures. **Maintenance of privilege:** Demonstrated current competence and the performance of at least 5 procedures in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

### INSERT CHEST TUBES TO INCLUDE PLEURODESIS

☐ **Requested** Those technical and management skills that qualify the NP to administer highly specialized care by virtue of training and experience. **Required previous experience:** Demonstrated current competence and evidence of the performance of at least 5 procedures in the past 12 months or direct supervision is required for the first 5 procedures. **Maintenance of privilege:** Demonstrated current competence and the performance of at least 5 procedures in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

### REMOVE INTRA-AORTIC BALLOON PUMP

☐ **Requested** Those technical and management skills that qualify the NP to administer highly specialized care by virtue of training and experience. **Required previous experience:** Demonstrated current competence and evidence of the performance of at least 5 procedures in the past 12 months
or direct supervision is required for the first 5 procedures. **Maintenance of privilege**: Demonstrated current competence and the performance of at least 5 procedures in the past 24 months based on the results of ongoing professional practice evaluation and outcomes.

**PERFORM INTUBATION**

- **Requested** Those technical and management skills that qualify the NP to administer highly specialized care by virtue of training and experience. **Required previous experience**: Demonstrated current competence and evidence of the performance of at least 5 procedures in the past 12 months or direct supervision is required for the first 5 procedures. **Maintenance of privilege**: Demonstrated current competence and the performance of at least 5 procedures in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

**PERFORM LUMBAR PUNCTURE**

- **Requested** Those technical and management skills that qualify the NP to administer highly specialized care by virtue of training and experience. **Required previous experience**: Demonstrated current competence and evidence of the performance of at least 5 procedures in the past 12 months or direct supervision is required for the first 5 procedures. **Maintenance of privilege**: Demonstrated current competence and the performance of at least 5 procedures in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

**PRESCRIPTIVE AUTHORITY AS DELEGATED BY A PHYSICIAN IN A WRITTEN AGREEMENT IN ACCORDANCE WITH STATE AND FEDERAL LAW**

- **Requested** The delegation to the Nurse Practitioner to administer or dispense drugs shall include the prescribing of controlled substances in accordance with the Ohio State Nurse Practice Act and its established formulary.

**PERFORM PHARMACOLOGICAL AND NON-PHARMACOLOGICAL STRESS TESTS**

- **Requested** Those technical and management skills that qualify the NP to administer highly specialized care by virtue of training and experience. **Required previous experience**: Demonstrated current competence and evidence of the performance of at least 20 procedures in the past 12 months or direct supervision is required for the first 20 procedures. **Maintenance of privilege**: Demonstrated current competence and the performance of at least 20 procedures in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

**PERFORM HYPERBARIC OXYGEN THERAPY**

- **Requested** Those technical and management skills that qualify the NP to administer highly specialized care by virtue of training and experience. **Required previous experience**: A course certificate from a 40 credit hour, UHMS (Undersea Hyperbaric Medical Society) approved training course and demonstrated current competence and evidence of the performance of at least 25 hyperbaric oxygen treatments under the supervision of a physician with hyperbaric privileges in the past 12 months. **Maintenance of privilege**: Demonstrated current competence and the performance of at least 25 procedures in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

**INSERT PULMONARY ARTERY CATHETERS**

- **Requested** Those technical and management skills that qualify the NP to administer highly specialized care by virtue of training and experience. **Required previous experience**: Demonstrated current competence and evidence of the performance of at least 5 procedures in the past 12 months or direct supervision is required for the first 5 procedures. **Maintenance of privilege**: Demonstrated current competence and the performance of at least 5 procedures in the past 24 months based on the results of ongoing professional practice evaluation and outcomes.
THORACENTESIS

☐ Requested Those technical and management skills that qualify the NP to administer highly specialized care by virtue of training and experience. **Required previous experience**: Demonstrated current competence and evidence of the performance of at least 5 procedures in the past 12 months or direct supervision is required for the first 5 procedures. **Maintenance of privilege**: Demonstrated current competence and the performance of at least 5 procedures in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

INSERT THORACOSTOMY TUBE

☐ Requested Those technical and management skills that qualify the NP to administer highly specialized care by virtue of training and experience. **Required previous experience**: Demonstrated current competence and evidence of the performance of at least 4 procedures in the past 12 months or direct supervision is required for the first 4 procedures. **Maintenance of privilege**: Demonstrated current competence and the performance of at least 4 procedures in the past 24 months based on results of ongoing professional practice evaluation and outcomes.

ACKNOWLEDGEMENT OF PRACTITIONER

I have requested only those clinical privileges for which by education, training, current experience, and demonstrated performance I am qualified to perform and for which I wish to exercise at Kettering Medical Center and/or Sycamore Medical Center, and I understand that:

a. In exercising any clinical privileges granted and in carrying out the responsibilities assigned to me, I am constrained by hospital and medical staff policies and rules applicable generally and any applicable to the particular situation.

b. Any restriction on the clinical privileges granted to me is waived in an emergency situation and in such situation my actions are governed by the applicable section of the policies governing privileged allied health professionals.
