Hernia Center

Kettering Health Network's Hernia Center specializes in state-of-the-art treatment of simple and complex hernias.

Distinctions of the Hernia Center:

- Short wait time for an appointment; patient seen within one week of referral.
- Surgical treatment is offered at several network locations to offer convenience for the patient.
- Complex hernias are repaired at Soin Medical Center by a surgical team with 15 years of experience in treating complex hernia cases.
- Robotic surgery offered.
- Physician and self-referrals accepted.
- Registered nurse coordinating care of each referral.
- Patient-centered, multi-specialty approach to hernia repair that results in better outcomes.

To make a referral please call Hernia Center Coordinator, Lauren
